We are adding to our team of dynamic individuals who bring our mission to life!

### MISSION

### WE:

- appreciate real food grown locally
- aren't afraid to take risks and learn from our mistakes
- care more about who you are and what you're passionate about than your previous food experience
- pay a livable minimum wage and are committed to taking care of our team
- are energetic and love teamwork
- value creativity and passion

### YOU:

- are interested in creating a place where food and community intersect in Baltimore
- are energetic and love teamwork
- are willing and eager to learn
- use your voice to stand up for what's right
- solve problems without pointing fingers
- are passionate about making the world a better place
- choose to support local farmers by shopping at the farmers market

Are you interested in contributing to our community focused food business? Are you just as excited about learning to cook all of our menu items as you are about learning about the local ingredients that go into it? Are you interested in the opportunity to engage with our pizza pals and provide them a memorable customer experience? Are you willing and interested in learning and doing all of the jobs necessary to make our Kitchen run (including, but not limited to: point of sale, prep, cook, and clean)? Are you self-motivated, team oriented, and willing to do the "dirty" work? Are you looking for an opportunity to engage with the local community and bring a smile to their faces? If your answers are an excited YES to these questions, then we want to hear from you!
